

True or False?
Bees
are
hairy!

True!
Bees have
hair all over
their bodies.
Even their eyes are
covered with
tiny hairs.

True or False?
Bees carry
pollen in a
pouch
under
their
head.

False!
Bees carry
pollen in
pollen
baskets on
their hind
legs.

True or False?
Beetles
are
messy
eaters.

True!
In fact,
beetles have
been
nicknamed the
"mess and soil"
pollinators!

True!
Butterflies
have skinny
legs and pick
flat shaped
flowers that help
give them a
landing pad.

True or False?
Butterflies
like
flat

butterfly

True or False?
Beetles
have no
sense of
smell.

False!
Beetles
like to eat
the petals,
pollen and nectar
found in flowers
with a strong
smell.

False!
Butterflies
taste with
their FEET.

True or False?
Butterflies taste
nectar with a
proboscis.

False!
Many
hummingbirds
weigh about
the same as
a small
dog.

True!
When
hummingbirds
fly, their wings
often make a
humming
sound.

True!
Bees have
hair all over
their bodies.
Even their eyes are
covered with
tiny hairs.

True or False?
Hummingbirds
get their
name
from
their
wings.
